"The 75th Anniversary of the United Nations is an extremely important milestone as this is the only body in the world that can help us achieve our goals of peace and stability in our neighborhood. This is also a time for us to reflect whether as the United Nations we have been able to realize the promise we collectively made to our peoples".

Prime Minister Imran Khan - UNGA75 High-level Debate- 25th September 2020
Guided by this vision of Quaid e Azam Muhammad Ali Jinnah, throughout these years, Pakistan has remained engaged with the UN to build partnerships and alliances for the collective good.

Our objective should be peace within and peace without. We want to live peacefully and maintain cordial and friendly relations with our immediate neighbors and with the world at large. We have no aggressive designs against anyone. We stand by the United Nations Charter and will gladly make our contribution to the peace and prosperity of the world.

Foreign Minister’s address at the High-level Meeting to Commemorate the 75th Anniversary of the United Nations (September 21, 2020)

Pakistan
His Excellency Makhdoom Shah Mahmood Qureshi

Statement Summary

MAKHDoom SHAH MAHMOOD QUReSHI, Minister for Foreign Affairs of Pakistan, said that the diamond jubilee of the United Nations is a landmark occasion, one on which to celebrate the Organization’s journey and exciting prospects. The United Nations was hope borne of the ashes of unmitigated suffering and misplaced notions of superiority. It addressed the need to save succeeding generations from the scourge of war and to reaffirm the fundamental rights of men and women. It has helped prevent the kind of destruction visited upon humanity twice within a generation, advanced arms control, facilitated decolonization and addressed threats to the environment. “But our euphoria must not blind us to its failings,” he said, adding that the Organization is only as good as its Member States. The disputes concerning Jammu and Kashmir and regarding Palestine are the Organization’s most glaring disputes. The people of Jammu and Kashmir are still awaiting the United Nations to help them craft their right to self-determination. The very forces that led to the Second World War, racism and fascism, are taking the shape of rising xenophobia and Islamophobia. Pakistan has been and remains an ardent believer in multilateralism.

SPECIAL SESSION OF THE GENERAL ASSEMBLY IN RESPONSE TO THE CORONAVIRUS DISEASE (COVID-19) PANDEMIC

YEAR 2020
The General Assembly held a Special Session in Response to the Coronavirus Disease (COVID-19) Pandemic. The COVID-19 pandemic is not only the greatest global health crisis since the creation of the United Nations 75 years ago. It is also a humanitarian, socio-economic, security and human rights crisis.

“I would like to propose a ten-point agenda for urgent action:

one, debt suspension till the end of the pandemic for low income and most stressed countries;

two, cancellation of debt of least developed countries;

three, restructuring of the public sector debt of other developing countries under an agreed inclusive multilateral framework;

four, a general allocation of special drawing rights of $500 billion;

five, expanded concessional financing to lower income countries through multilateral development banks;

six, creation of a new ‘liquidity and sustainability facility’, which should provide short term loans at lower costs;

seven, fulfilment of the 0.7% official development assistance commitments;

eight, mobilizing the required $1.5 trillion annual investment in sustainable infrastructure;

nine, achievement of the agreed target of mobilizing $100 billion per year for climate action in developing countries, and

ten, immediate action to stop the massive illicit financial outflows from developing countries to rich countries, to offshore tax havens and at the same time, immediate return of their assets stolen by corrupt politicians and criminals back to these countries.”

H.E. Imran Khan
Prime Minister of Pakistan
"Confronted by this monumental crisis, the world’s response must be equally bold. We must first ensure that a vaccine against the virus becomes available to everyone, everywhere, rich or poor, on an equitable basis. Those who are the most at risk – health workers, the ill and infirm – women and children must receive priority. Advance Purchase Agreements (APAs) for the virus must not be allowed to undermine our collective commitment to equity in vaccine distribution."

On the instructions of @ImranKhanPTI, today I have handed over a letter from FM to the President of the UNSC drawing attention to the recent developments in IOJK. This letter is to be circulated as an official doc of the SC under agenda item 'India-Pakistan Question'.

Letter dated 20 November 2020 from the Permanent Representative of Pakistan to the United Nations addressed to the President of the Security Council

The letter thanked the Council for again discussing the Kashmir issue and noted that Pakistan had submitted a letter concerning the issue. It expressed hope that the Council would take action to ensure a peaceful resolution. The letter also emphasized the need for an end to Indian occupation and for the right of self-determination of the people of Jammu and Kashmir.

KASHMIR SIEGE DAY

A webinar was held by Kashmir Awareness Forum on “Kashmir: A year under Siege.” Ambassador Munir Akram was a keynote speaker.

SPECIAL MESSAGE BY AMBASSADOR MUNIR
AKRAM ON KASHMIR SIEGE DAY (5TH
AUGUST, 2020)

"Today, we are observing Black Day of Kashmir. This is the day on which the Kashmiri people were forced to lose their right to self-determination after the illegal occupation of Jammu and Kashmir by India. In any case, on the 5th of August, 2019, India has thrown away any pretense to a legal claim to Kashmir. India has resorted to all manners. And its only claim to Kashmir today is the use of naked force by the army of occupation, which numbers 900,000 troops and is perpetrating the most atrocious repression against the people of Jammu and Kashmir. 1,500 youth have been killed, 20,000 arrested, and 2,000,000 people in Indian-occupied Kashmir have had their rights violated. Crime is rampant, collective punishments have been resorted to. In summary, violations in fake encounters of young Kashmiris are the order of the day.

Pakistan has expressed its solidarity with the people of Jammu and Kashmir in the struggle for self-determination, as promised in their resolutions of the United Nations and other international fora.

Pakistan will continue its efforts and every international forum and in every capital of the world to promote the legitimate cause of the people of Jammu and Kashmir. We will be consistent, and we will be strong in our support. And we are confident that the way people of Jammu Kashmir also remain resolute in the struggle for freedom and self-determination."
Today, on November 6, we remember with great sorrow the immense sacrifices of the people of the Indian occupied Jammu and Kashmir (IOJK). On this fateful day 73 years ago, more than 237,000 innocent Kashmiris, including women and children, were brutally massacred by the forces of Maharaja Hari Singh, Indian army and the RSS extremists in different parts of Jammu, Kathua, Udhampur and Reasi region. This was the first genocide after World War II, perpetrated with the clear motive to alter the regions’ demographics by turning the indigenous Muslim majority into a minority.

India’s illegal and unilateral actions of 5th August last year, are a continuation of this murderous intent. It has now embarked upon a “final solution” in occupied Jammu and Kashmir by eliminating its statehood, imposing a siege and changing its demographic configuration. These measures constitute flagrant violations of the UN Charter, the relevant Security Council resolutions, promising self-determination to the Kashmiri people; and international law, including the two International Covenants as well as the Fourth Geneva Convention.

The history of the last century testifies that atrocity crimes do not begin in a day. They are always preceded by systematic hate speech, discriminatory policies and other early warning signs. The recent spike in systematic violence and discrimination against Muslims in India, coupled with decades of oppression and atrocities in IOJK, are all part of the “Hindutva” ideology of the incumbent BJP-RSS government which seeks to eliminate the heritage of Islam from India and permanently deny the right of self-determination to the people of IOJK.

The events taking place now in IOJK are clear warning signals of a looming human catastrophe with enormous political, security and strategic ramifications for the region and the world.

The international community must take urgent steps to help address the grave human rights and humanitarian situation in IOJK and urge India to agree to implement the Security Council resolutions promising the right to self-determination to people of Jammu and Kashmir. On its part, Pakistan will continue to provide moral, diplomatic and political support to the people of Jammu and Kashmir until full realization of their legitimate right to self-determination in accordance with the relevant United Nations Security Council Resolutions.

The President of the United Nations Economic and Social Council (ECOSOC), H.E. Ambassador Munir Akram presented his views and vision on how ECOSOC as one of the Charter organs of the United Nations can respond to the pandemic.
"Unless we can mobilize the political will to implement these goals of equitable and inclusive development, it is unlikely that we will be able to agree to take the ambitious collective actions required to avoid the existential threat posed by climate change. Destitute developing countries struggling for economic survival will be in no position to make a “new Green Deal”. The ECOSOC will attempt to advance these essential actions in its Financing for Development (FFD) Forum next April and the High-Level Political Forum (HLPF)."

Ambassador Munir Akram
President of ECOSOC,
Permanent Representative of Pakistan to the UN

November 3, 2020

"Let me highlight a few concrete actions that we need to take to enable the developing countries to achieve a resilient, sustainable and inclusive recovery.

- First, it is absolutely essential that we address the debt vulnerabilities and liquidity requirements of developing countries. PM Imran Khan of Pakistan called for a global debt initiative back in April.

- Second, investment flows, including those from stimulus packages, should prioritize investment in sectors aligned with the SDGs, such as sustainable infrastructure in renewable energy, water and sanitation, transportation, information and communication technologies, health, and education.

- Third, Fiscal policies are a crucial component of COVID-19 response and recovery. The pandemic is an opportunity to put in place an equitable international tax regime to enable developing countries to generate adequate domestic revenues to finance the SDGs.

- Fourth, to allow illicit flows to continue from developing countries at this time, would be nothing short of criminal. The FACTI Panel interim report highlights that lack of financial integrity is a global problem, which requires global and inclusive solutions. I invite civil society to support the work of the FACTI Panel."

"Like all other aspects of our daily lives, the impact of Covid-19 impact on transnational organized crime has been significant. Some of the largest current threats to sustainable development emanate from crimes against the environment and, in the context of the COVID-19 pandemic, is the trafficking of counterfeit medical products. In the meantime, corruption and various forms of illicit trafficking and migrant smuggling continue to undermine the rule of law, economic development and the livelihoods of people".

“To face these challenges, Member States must strengthen their coordination and cooperation to effectively prevent, investigate and prosecute transnational organized crime, within the framework provided by the Palermo Convention."

"The long-standing challenge that should remain a critical focus for digital governance is the fight against the digital divides. The COVID-19 crisis highlights the profound inequity of the digital divide, where half of the world is using the internet to stay connected and continue business, while the other half is living literally in another world disconnected and unempowered.

I believe that we, the developing countries must aim, not only to catch up but to leapfrog into the digital era, focusing on broadband, 5G, artificial intelligence and getting on board the knowledge economy."

PAKISTAN'S CONTINUED PEACEKEEPING CONTRIBUTIONS

Happy Independence Day to Pakistan 🇵🇰, a top contributor to @UNPeacekeeping for decades. Pakistani peacekeepers protect civilians, facilitate humanitarian assistance, provide skills training, medical assistance & much more to communities. I am thankful for their service.

Pakistani peacekeepers 🇵🇰 serving with @unamidnews conduct a training course for Darfuri community members and military contingents on basic life support techniques. #A4P

The day after Christmas, #MONUSCO Pakistani 🇵🇰 peacekeepers raised awareness of the local population in Sange (#SouthKivu, #DRC 🇨🇩) about healthier food and natural health care with a view to improving their capacity to cope with common health problems.
“We mark this day as a culmination point of a successful, non-violent and peaceful struggle of our forefathers for a separate homeland. The founding fathers of Pakistan created a country that not only guaranteed safety to its citizens from the tyrannies of colonialism and majoritarianism, but also inspired a nation that would chart a new way forward towards a progressive and prosperous future, based on our unique ideology and the timeless spirit of unity, faith and discipline.

On behalf of all officers and staff of the Permanent Mission of Pakistan to the UN, I wish to congratulate my countrymen on our 74th Independence Day”.

YEAR 2020
Pakistan Mission to the UN marked Pakistan’s 74th Independence Day with the officers of the Mission and the Consulate in New York, August 14, 2020.
A brochure to mark the Commemoration of UN 75th Anniversary on the United Nations day was developed by the Pakistan Mission to the UN, Information (Press) section. The pictorial collection represents Pakistan's continuing resolve in maintaining international peace and security at the United Nations since it's joining United Nations in 1947. A special video message of PR on the commemoration and special social media campaign was also carried out with digital dissemination of the pictorial brochure.
PAKISTAN AND THE UN LEADERSHIP

Pakistan has always maintained that today’s United Nations is a multidimensional force for good. We will continue to strengthen the United Nations and a world order based on time-tested principles of the UN Charter.

EID DAY

We at the Permanent Mission of Pakistan to the United Nations wish everyone a blessed Eid ul Azha.

Eid-ul-Azha is an important religious occasion which is defined by the spirit of sacrifice, generosity and kindness towards our fellows. By bringing us together in celebrations, it encourages us to help those who need our support.

Today, this spirit of charity is needed more than ever as we fight a global pandemic that has upended countless lives, bringing uncertainty and compounding difficulties.

On this festive occasion, we pray that Almighty accept our sacrifices and good deeds, and bestow His countless blessings on all of us.

PALESTINE DAY

Permanent Mission of Pakistan to the UN
New York

Message by Ambassador Munir Akram, the Permanent Representative of Pakistan to the United Nations, on the International Day of Solidarity with the Palestinian People

The Palestinian question is one of the oldest unresolved issues at the United Nations. The long and heroic struggle of the Palestinian people to attain self-determination and achieve their independent state is reinforced by a near universal international consensus in its legitimacy, as reflected in numerous pronouncements of the General Assembly and the Security Council.

On this day in 1947, the General Assembly passed its historic resolution 181 which laid down the basic parameters of the establishment of a Palestinian state, and enshrined the status of Jerusalem as Corpus Separatum. It is travesty of justice that only the Jewish state came into being and the Palestinian people were condemned to immeasurable misery, suffering and grief – by making them stateless in their own land.

Pakistan has always remained a staunch supporter of Palestinian people. Supporting Palestinian right to self-determination and calling for an early creation of a viable, contiguous, independent and sovereign Palestinian state, based on internationally agreed parameters – pre-1967 borders and Al-Quds Al Sharif as its capital – has remained a cardinal pillar of Pakistan’s foreign policy. Our support remains unwavering. We will continue to impress upon the world that creation of a Palestinian state – on the grounds acceptable to the Palestinian people – remains the only abiding guarantee for peace in the Middle East and for the wider world.

Every year, Pakistan table a resolution in the Third Committee on ‘universal realisation of right of peoples to self-determination’. Through this, and other initiatives, we show our resolve of fighting for all oppressed people who are waging legitimate struggles to earn their freedom.

The International Day of Solidarity with the Palestinian People provides an opportunity to the international community to renew its commitment to the Palestinian peoples and help them attain their inalienable rights.

"Palestine is the core issue in the Middle East. It is this conflict which has, over the years, spawned regional hostility. It is this conflict which has contributed the most to the anger and frustration among the peoples of the Arab and Islamic world. The resolution of the Israeli-Palestinian conflict is essential for peace and stability throughout the Middle East region. Pakistan on its part has consistently and vigorously supported the just and legitimate struggle of the Palestinian people for self-determination and against foreign occupation."

Counsellor at the Pakistan Mission to the United Nations

My take on Aria Formula Meeting on the Peace Process in Afghanistan today.

Today we have heard one such spoiler. The statement made by the PR of India has made it clear that #India does not want peace in the region. As the incoming non-permanent member of the Security Council, India will not let go of any opportunity to derail the Afghan peace process.

#Pakistan has walked along side the int’l community in every possible way by encouraging reduction in violence and by urging dialogue and negotiations. The commencement of intra-Afghan Negotiations was the result of our combined efforts. @ForeignOfficePk @ReutersPakistan

Ambassador Munir Akram

Message from Ambassador Munir Akram, Permanent Representative of Pakistan to the UN, on Quaid-e-Azam’s Birth Anniversary & Christmas

On the Christmas Day I wish everyone a very happy and joyous holiday season. This Christmas has come at the end of a difficult year for all humanity. While we celebrate in this festive season, we must be thankful for the Almighty’s beneficence and be kind and generous to those who are grieving and suffering amongst us.

For us in Pakistan, this day is all the more significant as it is also the birth anniversary of our founding father, Quaid-e-Azam Muhammad Ali Jinnah. He was one of the greatest statesmen of the modern age. His integrity, commitment and vision inspired a nation to wage a peaceful struggle to gain independence from colonial rule and communal domination. The Quaid e Azam singlehandedly reshaped the map of South Asia and transformed the dream of an independent homeland for the Muslims of the sub-continent into the tangible reality of Pakistan.

On his 144th birth anniversary, all Pakistanis, at home and abroad, must live up to his call for unity, faith and discipline and renew the collective commitment to realize the Quaid’s purpose of making Pakistan a progressive, advanced and welfare state which guarantees a secure future for all its citizens and protects the rights of the weak and vulnerable in Pakistan and of those who are oppressed in any part of the world.
