

Message of Prime Minister Imran Khan on the occasion of EidMilad-un-Nabi
(PBUH) 12th Rabi-ul-Awal 1443 AH

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

I congratulate people all over the world and especially Muslims on the auspicious occasion of EidMilad-un-Nabi. Rabi-ul-Awal is the month in which the Creator of the universe sent Prophet Muhammad (PBUH) as a beacon for the worldly and ultimate success of mankind. His teachings brought about a revolution in every aspect of human society which broke the chains of the system of oppression prevailing all over the world and opened the doors of prosperity to humanity.

Strong belief in the Oneness of Almighty, closeness to the Lord through worship, mercy, forgiveness, truthfulness, honesty, good morals, compassion for God's creatures and the fulfillment of the rights of people made the Islamic society an example unparalleled in history. -It was the effect of Prophet's (PBUH) teachings that the Arab tribes, which had been suffering from internal strife for centuries, emerged as one nation, women's rights were protected, slaves were respected in society and orphans and helpless people were supported.

The Prophet (PBUH) founded the state of Madinah, which emerged on the world map as a model for humanity, justice and the rule of law. A state system in which the protection of minorities, the welfare of the poor and needy, the rights and duties of the state and its citizens were established.

In order to make people and the world aware of the Seerah of the Holy Prophet (PBUH), we have established the Rehmatul-lil-Alameen Authority, which aims to inform the world about the Islamic Revolution by undertaking research on individual and collective aspects of Seerah-e-Taiba and provide guidance to the youth. The Rehmatul-lil-Alameen Authority will also raise awareness at the international level about the life of the Holy Prophet (PBUH) and the utmost respect Muslims hold for the Prophet and will take steps to counter Islamophobia.

On this auspicious day, I would particularly like to appeal to the parents to pay special attention to the education and training of their children so that they may be acquainted with various aspects of the life of the Prophet (PBUH), especially good morals. We are committed to make Pakistan an Islamic welfare state on the lines of the state of Madinah and to strive to live our lives with good morals in the light of the golden principles from the Prophet's (PBUH) teachings.

Pakistan Paindabaad
